PROFESSIONAL EXPERIENCE

UI/UX Designer <i>HYPE-SWISS</i>	Dec 2025 - July 2026 <i>Remote - Switzerland</i>
● Crafted an intuitive, modern point-of-sale (POS) interface for multiple businesses with easy-to-use interactions. Built wireframes and interactive prototypes (Figma) to validate user flows ahead of development handoff.	
UI/UX Designer & FrontEnd Developer <i>FLUX GROUP SARL</i>	Jan 2025 - Nov 2025 <i>Remote - Switzerland</i>
● Created and implemented a creative, modern, and responsive website design, improving overall user experience and visual consistency. Collaborated with the development team to ensure design-to-code fidelity across devices.	
UI/UX Designer <i>SSG SWISS</i>	Jan 2024 - Sept 2024 <i>Remote - Switzerland</i>
● Developed the complete UI/UX for a railway booking platform and its companion website, focusing on interface clarity and a smooth end-to-end customer journey. Mapped user flows and built high-fidelity prototypes to streamline the booking experience.	
UI/UX Designer & Frontend Developer <i>WORLD PSYCHIATRY ASSOCIATION</i>	Mar 2023 - Dec 2023 <i>Remote - Switzerland</i>
● Led a complete redesign of the association's website and e-learning platform, improving navigation and accessibility for a global audience. Restructured information architecture to make psychiatric resources easier to find and use.	
UI/UX Designer <i>CENTRAL TEST</i>	Jan 2022 - Aug 2022 <i>Fianarantsoa</i>
● Built an intuitive, visually coherent UI for a prediction and analysis web application, ensuring a consistent visual language across features. Created wireframes and interactive prototypes to validate usability with stakeholders before development.	
UI/UX Designer <i>TRANSVERSE</i>	Feb 2021 - Nov 2021 <i>Fianarantsoa</i>
● Conceived an interactive game website centered on biblical trivia, integrating engaging and educational features for the target audience. Developed the visual identity and UI components to support an enjoyable, easy-to-navigate user experience.	

PROJECT

HealthShield System <i>UI/UX Designer & FrontEnd</i>	Mar 2026 - Présent <i>Figma, React, Flutter</i>
● Designed the UI/UX for the HealthShield web dashboard and companion mobile app, turning climate-based malaria and malnutrition risk predictions into clear, actionable visualizations for health workers.	
● Developing the frontend for both the web dashboard and mobile app, translating designs into responsive, functional interfaces consuming the project's prediction API.	

CERTIFICATION & COMPETITION

- First Global Virtual Judge 2026 - Certification
- STEM For Good Madagascar - CodeCode Competition 2024 - Runner-up
